**PRIMARY EXAMINER**

1. The following is an examiner's statement of reasons for allowance: The combination of claim 1 specifically, the two electrode plates with sharpened free ends.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Koontz and Henrici et al teach a bulb seat with a screw at one end and a plane at the other but no switch on the body and no rectangular connectors extending from the plane. Bishop teaches a bulb seat with a screw at one end and a plane at the other but no electrode plates. Zimmer et al teaches a plane on an end of a bulb seat assembly with connectors but no switch or electrode plates. Trainello teaches a bulb seat with a screw at one end and a plane at the other also a switch on the body and rectangular connectors on the plane but no electrode plates extending into a groove between the two connectors with the plates having a sharpened free end.
